Independent output heads (schematic)

(a) Long-axis section

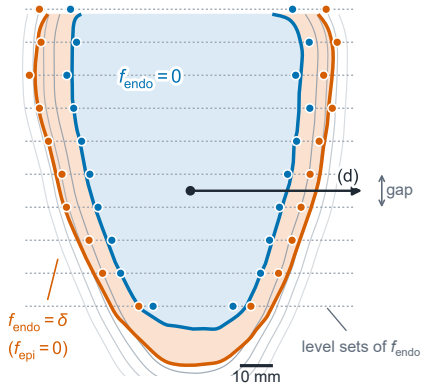

(b) Fields along the ray in (a)

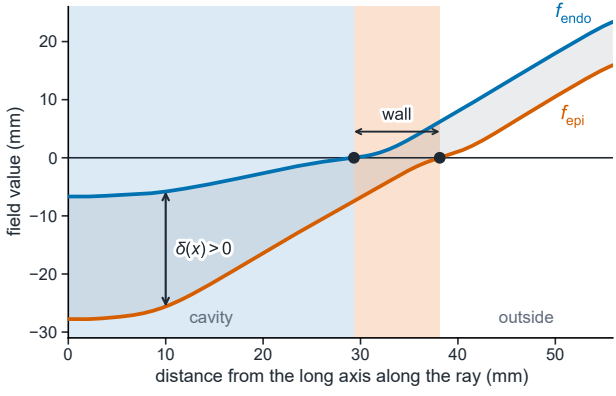

Positive-offset coupling (proposed model, one ACDC case at ED)

(c) Long-axis section

(d) Fields along the ray in (c)

endocardium
epicardium
contour point on an acquired plane
acquired SAX plane
cavity
myocardial wall
inside cavity, outside epicardium
offset $\delta = f_{endo} - f_{epi}$
